PRESIDENT'S MESSAGE

Welcome to June, Mililani! It's difficult to imagine that the year is half over! Where does the time go?

Now that summer is fast approaching and school is out, I thought it would be a good idea to discuss road safety. In the morning, on my way to work each day, I need to make a turn onto a main road and there is a crosswalk there that leads to a nearby school. You will not believe the things I see as it relates to drivers not paying attention to the people that are walking in the crosswalk. I see so many pedestrians in danger of being hit just because a driver does not want to wait another 30 seconds for them to safely cross the street.

Here is a question and answer straight from Honolulu Department of Transportation web site:

After a pedestrian has passed in front of a vehicle at what point is the vehicle allowed to proceed?

In accordance to: §291C-72 Pedestrians' right-of-way in crosswalks. (a) The driver of a vehicle shall stop for a pedestrian who is crossing the roadway within a crosswalk when the pedestrian is either:

- (1) Upon the half of the roadway upon which the vehicle is traveling; or*
- (2) Approaching the vehicle so closely from the opposite half of the roadway as to be in danger, and shall not proceed until the pedestrian has passed the vehicle and the driver can safely proceed.*

I can tell you, firsthand, that these rules are not being followed by all. There are many people that will go out of their way to ensure pedestrian safety, but I am concerned with the ones that don't.

E-bikes are a whole other story! We are working with Honolulu Police Department to crack down and issue citations to those who are either riding their E-bikes illegally, such as on the sidewalks or riding wheelies down the middle of the street or riding throughout our common greenspace areas and tearing them up. I know there is growing concern about these E-bikes and their riders, and you should know that we are very serious about putting a stop to it.

Aloha,
Bob Barrett
MTA Board President

**NOTICE REGARDING UPCOMING
 REC 3 RENOVATION**

Aloha MTA.

This is to notify you of an upcoming closure of Rec. 3 for renovation. We do not have a construction start date yet, but anticipate it to be anywhere from July 2024 to December 2024, depending on when the building permit is approved. The project will take approximately one year to complete, once it is underway.

As part of the renovation project, we will be installing new flooring, new lighting, new bathrooms, a new roof with PV panels, new windows and doors, a café similar to the one at Rec. 7, and we're converting office space to recreation space that will include a video arcade. Outside we will be building a tot-lot between the pool and pickleball courts, and we will be completely renovating all the pickleball and tennis courts.

We are doing everything we can to minimize the inconvenience that the closure will cause. We are looking into options for an alternate pickleball location. We are moving classes to other Rec. Centers. The Admin. office will be open during construction, and the Rec. 7 business office is open weekends and evenings.

Thank you for your understanding, we will issue updates as new information becomes available.

MONTHLY COVENANTS INSPECTIONS

In an effort to be proactive with our homeowners, MTA wants to inform everyone of the areas that are being inspected each month. The areas highlighted on this map are the areas scheduled for routine Covenant inspections for this month.

We hope to reduce the amount of violation letters we have to send out, by giving you an advance notice of where we will be. We are not trying to do our inspections in secret. We may be seen in an area that is NOT scheduled for a routine inspection. The reason is usually because we have a re-inspection, a complaint or a design project inspection in that area. Please remember, if you have any questions, please feel free to ask. We are very friendly and very willing to talk to you.

HERO
HERO FIRE PROTECTION

On the night of your fire, one of two things is going to happen:

YOU GET OUT... OR YOU DON'T.

Chances are, you currently have a smoke detector that has no problem alerting you to white, cooking smoke. But, when it comes to deadly, black smoke, studies show that the same smoke detector in your home has been proven to fail at an alarming rate. And, in most cases, the smoke detector that you depend on to protect your family will simply melt off of the wall due to the extreme temperature of a life-threatening fire.

Do you want a smoke detection system that might work or an **ADVANCED SMOKE and HEAT sensing system that WILL WORK?**

TIME SAVES LIVES.

Protect your home and family today.
